## 1. What is iRestora PLUS SaaS

iRestora PLUS SaaS is a SaaS (Software as a Service) version of the main iRestora PLUS software. Where you can run this software as monthly pay basis service to restaurants. Please visit this link to see full feature of the main iRestora PLUS software:

<https://codecanyon.net/item/irestora-plus-multi-outlet-next-gen-restaurant-pos/24077441>

## 2. Feature List

- Complete POS
- Fully White Labeled
- Nice Looking Landing Page
- Restaurant Signup
- Account Approval & Block
- Add Restaurant Manually
- Payment Gateway Integration
- Pricing Plan Management
- Monthly Recurring Payment
- Add Payment Manually
- Trial Period
- Including all features of the main iRestora PLUS software

**Special Note:** Please read the iRestora PLUS documentation to get used to with the system to use it for your restaurant and to explain features to your potential restaurant client. Main iRestora PLUS software documentation is included within this package.

### 3. Server Requirements

- PHP 7+
- MySQL 5.4+
- Extensions need be enabled: Mysqli, CURL

### 4. Installation

Please follow below instructions:

1. Upload downloaded zip file in your server and extract it
2. Open this file in your editor application/config/cofig.php
3. Make sure this line is looking like below:
4. `$config['base_url'] = 'http://localhost/irestora_plus_saas/';`
5. Create a database named irestora\_plus\_saas
6. Import irestora\_plus\_saas SQL file into your database
7. Open this file in your editor application/config/database.php
8. Make sure these three variables are looking like below  
`$db['default']['username'] = 'root';`  
`$db['default']['password'] = '';`  
`$db['default']['database'] = 'irestora_plus_saas';`
9. And finally run the project by accessing `http://localhost/irestora_plus_saas/`

### 5. Login

If you already run the software, you supposed to get a login form. Please login using default login credentials. Email: admin@doorsoft.co Password: 123456

No worry please, you can change your credentials immediate after login.

### 6. Change Password

After login, please go to **Change Password** from **Account and User** menu and change the default 123456 password by your own. You can also update this any time you need.

### 7. Change Email
